LUTRONIC
Intelligent Care™

PicoPlus®

Highest Power & Versatility For Difficult Cases

- Highest Power of Any Multi-Wavelength Picosecond Laser
- Shorter Pulses (450ps) – Reduced Pain & Erythema
- Dual Pulse Width AND Four Wavelengths for Maximum Versatility
- Advanced Proprietary Technology & Elegant Ergonomics
- Proven Performance & Reliability - Hundreds Sold Worldwide

Intelligently Designed with the Physician in Mind

INTUITIVE
Designed for the most busy user, the system is a dream to use: instantly switch between wave-lengths and pulse durations without the need for recalibration.

INNOVATIVE
Industry exclusive 0.01 J/cm^2 settings permit safe and effective treatments on dark skin. Dual Focused Dots handpiece features adjustable depth micro-beam scanner for advanced skin rejuvenation procedures.

EFFECTIVE
With high power for the most difficult cases, such as mild pigment (cafe-au-lait and freckles), recalcitrant tattoos, exotic ink colors, and more.

DEPENDABLE
Physicians around the world rely on PicoPlus for optimal outcomes. It self calibrates to maximize uptime.

Reproducible Results... Even on DIFFICULT Cases

WIDE RANGE OF APPLICATIONS

- Melasma
- Post Inflammatory Hyperpigmentation
- Freckles
- Cafe-au-lait
- Nevus of Ota
- Fractional Skin Rejuvenation
- Lentigos
- Seborrheic Keratoses
- Tattoos (Multicolor & Black)
- And More

> "The system offers many other benefits, including pigment removal, rejuvenation* and laser facial toning. The user-friendly interface comes with a toggle function for adjusting fluence energy settings very easily. Settings can be adjusted at any stage of treatment and the warm up time is very quick."
